

Coronavirus Update | 4th August 2021

Good afternoon everybody. I want to encourage everybody that to date we have no knowledge of any confirmed cases of COVID19 in our community or anybody in contact with a confirmed case of COVID19.

Continued Remote Learning for all NSW

You may have heard by now that all of NSW will be in a lockdown for the next week. You may also have heard that there were COVID fragments found at South Lismore sewage. I am extremely thankful to all of our parents and carers as it is clear that our school community has been taking COVID very seriously.

I want to reiterate that students should be primarily engaging with English and Mathematics work and then engaging with other subjects if they have the capacity to do so. For those of us who have thought that this lockdown may only be for a week and whose children have not engaged with the work so much, I want to encourage you to start doing so. Please contact the school so that we can make up Remote Learning Packs if you do not have adequate internet access at home. Please understand that it will take at least 24 hours, once we learn about your request for a learning pack to be put together. Next week we will start to contact families who have not been engaging with any work and revising online expectations particularly regarding English and Mathematics. We will be doing so because we care about your children's education.

HSC Trials

Mr McPherson and I have been discussing options for Trials if the lockdown continued which has now been confirmed. We will finalise our decision on Monday and give you more information then. Continue to study as you should expect to be doing trials in some format.

Please be assured that we know this is not easy and we are praying for you and your families throughout this time.

Regards

Mr Jolliffe

Principal
